For: FLUID FILTRATION ASSEMBLY COMBINING RETURN-SIDE AND
SUPPLY-SIDE FILTERS FOR USE IN A VEHICLE TRANSMISSION

AMENDMENT UNDER 37 C.F.R. § 1.111

Responsive to the Office Action dated February 4, 2003, please amend the above-
identified application as follows:

IN THE CLAIMS:

Please add new claims:

13. (New) The fluid filtration assembly as set forth in claim 1, wherein the return-side
media is operable to remove particulates of predominately at least a first size and the supply-side
media is operable to remove particulates of predominately at least a second size, the particulates
of the first size being smaller than the particulates of the second size.

14. (New) The vehicle transmission as set forth in claim 7, wherein the return-side
media is operable to remove particulates of predominately at least a first size and the supply-side
media is operable to remove particulates of predominately at least a second size, the particulates
of the first size being smaller than the particulates of the second size.
